FOR SALE.

Valuable Real Estate in Greene County, North Carolina.

DESIROUS of changing my residence, I offer for sale my plantation, known as the

"STREETER FARM."

It contains 1,900 acres, 1,200 of which are cleared, the remainder is well timbered, with Pine, Oak and Hickory. The plantation is under good fence. Marl and Swamp Muck, for composting, INEXHAUSTIBLE. This is justly regarded as one of the finest Cotton Farms in South Carolina.

There is on the premises a large, commodious Dwelling House, which is being repaired and refitted, together with all necessary out-buildings, including cabins for laborers.

I will also sell with the land aforesaid, all my Mules, Horses and other stock; farming implements, as well as household and kitchen furniture.

This is a rare opportunity for any one wishing to purchase a good class Plantation in the south, with everything deemed necessary for the immediate commencement of farming operations.

Terms reasonable. Those wishing to purchase can apply, for further information to my Attorney, C. W. Johnston, Greenville, N. C., or to the undersigned.

JOSIAH TURNER, Jr., EDITOR.

A DISGUSTED PARSON—HE DON'T LIKE THE WAY HIS RADICAL BRETHREN ARE "RUNNING THINGS."

Rev. Charles Godfrey, presiding Methodist elder of Lafayette (Ind.) circuit, preached a sermon at Lebanon last Sunday night, at the conclusion of which he alluded in scathing terms to the rottenness and corruption of the leading radical politicians of Indiana, and charged the "wire pulling laborers" with hostility to the Methodist church. He said Lincoln turned Methodists out of office and appointed none, and removed Joe Wright from Berlin because he was a Methodist. Grant had appointed no Methodist to office, except his brother-in-law as Consul to a German State. He also stated that it was a fact that more Methodists were appointed to office under Buchanan's administration than any other, and that the Methodists voted with the Democrats up to 1854, at which time they "stuffed off" on the whisky question, and have since voted with the Republicans. He claimed that the Methodists held the balance of power in Indiana, and if the Republican politicians persisted in "cussing" the church, they would turn things upside down again and abandon the support of the Republican party. He said that Cumback was a martyr to his religious opinions, and character and Baker's conduct as infamous and treacherous. He defied anybody to point to a Methodist now in any important office. The Republicans, he remarked, had had control of legislation for 12 years, and had spurned the petitions of the united church for a temperance law—the "whisky guzzling" politicians had shoved their petitions under the table. He charged upon the Republican Legislature the amendment of a most infamous divorce law, which was a disgrace to the State, and made the very name of Indiana a byword and reproach the country over. He estimated the Methodist vote in Indiana at 20,000, which he said was a power in the State not to be underrated, and he cautioned the radicals to look out lest they lost that support, the spinal column of their party. He is one of the prominent radicals who believe that the Republican party, under its present guidance, fails to accomplish its mission, and hence must be regenerated and purified, or else it must soon bite the dust. From a moral standpoint, Mr. Godfrey rightly appreciates the corruption, the baseness and rottenness of the radical party.

A SUBTLE POISON—THE PLANT BY WHICH THE EMPRESS CARLOTTA BECAME INSANE—GEN. LESCA IS ALSO POISONED.—By telegraphic dispatches it appears that General Lesca has been poisoned. It is uncertain whether the deed was perpetrated by some of the insurgents or by some Spaniard who feared that Lesca was using too much clemency toward the Cuban forces. Certain it is that Lesca has been poisoned, and that his mind has become sadly injured. The probability is that he will live, but become insane. The decoction by which he has been put in this sad plight, it is certain, was the same by which the interesting widow of the unfortunate Maximilian was thrown from the domain of reason into the depths of lunacy.

To us, this unfortunate widow has always appeared like Shakespeare's "Ophelia," who, with darkened mind, strewed flowers on the stream.

This poison, which maidens without bringing death to its victim, is derived from an herb which grows in Cuba, South America, and a few places in Mexico. The plant is one of the most wonderful of nature's productions. It resembles the century plant in many of its features. Like the century plant it is a member of the cactus family; still further, it blooms once in many years, and at regular intervals. The bud is large and resembles that of the horse chestnut in the peculiar gluten surrounding it. From this the natives derive the poison.

The flower is of a gigantic size, and contains a purple centre, surrounded by blue and white circles. The perfume is delicious, but deadly, and the natives clean up French as the authors of the songs of the sirens. To inhale is sweet, but to remain is death. The sorcerers, or medicine men, take the buds of this singular plant, and, first roasting, place them in a pot with sacred oil over a fire, and dance around it with strange ceremonies till the extract of the herb magic, which they cause their strange incantations, and pour the decoction resembling honey, into shallow plates, from which, after the lapse of a few days, it is again taken out and kept in miniature jars.

The poison, when taken in sufficient quantity, first places the brain in a delightful delirium resembling that produced by laud gas. This is succeeded in a few days by an unconscionable apathy, in which the patient is at times extremely rational, but greatly exhilarated. This poison is not destroyed by being mingled in victuals before being subjected to heat, but its immediate effects are somewhat deadened. They are sure to appear, however, in the lapse of time.

This is the manner in which the poison is generally administered: When the victim is of no great influence, and it is improbable that he can save or his poisoner, the decoction is administered in a glass of wine or a cup of cocoa. The poison manifests itself shortly, and in the course of a week all the various phases of the delirium appear. The sad fate of the Empress Carlotta is known to all; but this description of the poison, from what it is derived, and how it acts, may aid in forming a more correct appreciation of the horrible troubles to which she is subject. General Lesca has been poisoned by the same herb, and is now subject to the same freaks of insanity as the Empress Carlotta.—*Washington Republican.*

SIR LUCIUS O'TRIGGER.—The correspondent of the Baltimore *Gazette* thus refers to the gentleman from New Hampshire who represents, in part, North Carolina, in the United States Senate:

A carpet-bagger in North Carolina (entirely misappreciating things) has just attempted to become a proficient in Southern chivalry in the modern fast fashion of two lessons. The first he took under Professor Sprague, of Rhode Island, and the second under a Wilmington editor. He as yet has made but slight progress, having evidently too severely pondered over the memoirs of ancient Pistol.

LUCERNE CLOVER

This clover, a species of medick, though as yet but little cultivated in this country, is very valuable for the supply of superior green food it furnishes, and also for its superior fodder when well cured. It stands more erect than red clover, and is not liable to lodge. Its leaves are composed of three oblong toothed leaflets, and the flowers are a bright blue. The seed is about twice the size of that of common clover. This plant is a native of France, where it is as generally cultivated as is red clover with us. As yet it has been little grown in this country, which, I think, is owing to our ignorance as to its merits and easy cultivation. Its cultivation is not difficult, though the ground should be prepared as for wheat. Oats stubbles plowed down and harrowed can be followed with lucerne with good success. It should be drilled in rows, about ten inches apart, early in the spring, at the rate of a bushel of seed to six acres. This will produce a crop of early clover, but the ground should be clean to raise it successfully. It grows almost on any quality of soil in this country. I have it growing on stiff clay, gravel and loamy soils; also on a ridge where the soil is very light and dry. It makes the heaviest growth on the level parts of the field where there is the heaviest clay soil. Lucerne withstands severe and long continued drought. Its roots penetrate deep into the soil, and extract moisture when red clover is burning up. It is a perennial, and affords good crops for a number of years. For green food it can be mown two and three times in a season, its growth being very rapid after cutting. A good crop will produce twice the quantity of hay that red clover will, and no other forage plant is available so early in the spring. For hay it should be cut before blossoming. It is then more succulent and has fewer stiff stems than if permitted to stand until after it has flowered.

Farmers should try more of these new forage plants. They will find many of them well adapted to our country, and they will yield far more abundantly than those commonly in use. Nor will they exhaust the soil so much as timothy and some other grass now cultivated.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE CUSHIONS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Seiss Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price, Washer $13, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

Valuable Property for Sale in Raleigh and Wake County.

PURSUANT to a decree of the Court of Equity for the County, I, as Commissioner, will sell at the Court House, to the highest bidder, all of the Real Estate of the late Sarah Stronach, Geo'd, to wit:

One House and Lot, in the City of Raleigh, containing two acres, more or less; said house in fair condition, has six rooms and good basement. On the Lot there is a very fine Well of Water and all necessary out-houses. The fences are nearly all of new and sound timber, and the soil in fine condition. There are quite a number of Shade and Fruit Trees on the premises. Also a Lot containing three-fourths of an acre, more or less, near the above mentioned one. Both Lots are on Hargett Street, just beyond the city Cemetery, and on the direct road to the "State Fair Grounds." Also a Tract of Land about five miles from the City, which is very well timbered, and adjoins the lands of W. E. Pierce and others.

This property will be sold on the 28th day of August A. D. 1869.

Terms made known on day of sale.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

TUESDAY, AUGUST 24, 1869.

POLITICAL SINS.

In our mountain trip we heard a class leader and an unrepentant rebel, discussing the question as to whether political sins could send a man to hell. The class leader thought they could. The reb said there was no chance hereafter for Gov. Holden, for all his political acts were sins or crimes, and he defied any man to name a political act of the Governor which had any virtue in it. One reb cited his editorials in 1861-2, another his signing the ordinance of secession, and a third to the horror of the pious class leader, said his proposition "asking for the head of Abe Lincoln." The result of the discussion was that all came to the conclusion that the Governor was a political felon, who deserved the severest punishment. The discussion reminded us of an Irish felon in Curran's time, who being convicted, was called upon by the Priest to confess the enormities of his whole career. After doing so, the Priest asked if he could not recollect one single good action of his life to be put to the credit of his soul! The felon answered, "no not one—God forgive me, not one." If the Governor has any one political action which he could have put to the credit of his soul, we are at a loss to know which it is.

We have no doubt but the pious Pepper, or devout Whitson can find religious merit in the political deeds of our "coming beloved."

TWENTY PAIR OF SHOES.

A reader of the SENTINEL was heard to doubt whether the perfidy and falsehood charged upon the Lieutenant Governor, Tod. R. Caldwell, was really true. We should have a mean opinion of ourself if we should knowingly state any untruth, even of a mean man. We gathered our facts from the most reliable gentlemen of Burke County. We omitted, heretofore, to state one convincing fact: that the Lieutenant Governor can't take the test oath without perjury. When he returned home from his visit to the army, where he spoke and cried, and cried and spoke, to the "Burke Tigers" going into battle, he sent the Company twenty five pairs of shoes.

It is true Judge Brooks took the test oath, after giving to a young friend a horse, bridle and saddle, to ride in the army as a cavalryman. But Brooks can get out in this way: the horse soon don't with the colic and therefore never gave "aid, countenance or encouragement to the rebell on," and he swore he did not.

But not so with the shoes; they had no colic; and the "Burke Tigers," standing in the shoes afterwards, trampled the "flag" under their feet, while with bloody hands they welcomed the invaders to hospitable graves.

Yes, all that we said of the Lieutenant Governor is true, and twenty five pair of shoes besides. He need not prate about his loyalty, he can no more take the test oath without perjury upon his soul, than Brooks, Holden or Starbuck.

WHERE IT PINCHES.

A late Article in the *North Carolinian* is, perhaps, suggestive of the reason of the President's course in regard to Tennessee and Mississippi, on the subject of general amnesty. The *Carolinian* says, it was "unwise" in the Walker Committee to refuse coalition with the Wellsites, when the proposition was made by the Chairman of the Well's Committee. "We believe the refusal was unwise," says the Editor of the *Carolinian*, "and we are mistaken if it is not found out that such is the feeling at Washington." "Gen. Grant will not give countenance to personal quarrels." Gen. Grant was understood clearly to "countenance" the movement in Virginia to put down the "extremists of the Wells faction," as the *Standard* called them; the movement was successful and the people everywhere rejoiced, because it was thought that a path had been opened to a peaceful, if not, to some, a very palatable, adjustment of the agitation that was daily destroying the best interests of the country. The movement was organized for this express purpose, and after it had given every promise of accomplishing the object proposed, where was the wisdom of entering into an arrangement with the "extremists" to jeopard the good to be attained? If the Wellsites had a mind to come over to the Walker liberals, renouncing their own proscriptive policy, let them do it; the Walker Republicans could make no concessions—they had fought and won their ground and were right in maintaining it. Tennessee fought it out on the same line, and Mississippi is following, and whatever may be thought of it in Washington, all the power of the administration can't stop the progress of the movement without a resort to extraordinary means—the interposition of unconstitutional authority.

Four companies of California militia have been mustered out of the State service for refusing to march in the San Francisco Fourth of July procession with colored men.

READ OUT.

The *Standard* has read Judge Logan, Col. C. L. Harris, the Newbern *Times*, and the Rutherford *Star*, and some others, out of the Radical party. The *Star* comes back on the *Standard*, in last week's issue, and reads that paper out, and gives some very good reasons why it should no longer be considered the party organ.

The *Star* suggests the necessity of getting up a reliable organ here, and calls upon the Radical press of the State for an expression of views on the subject. Now, we should like to know what the ground of opposition to the *Standard* is. Is it not sufficiently proscriptive? Why, it can give you quotation after quotation from its columns for the last two years to show that not even the Washington *Chronicle* itself has gone beyond it in the advocacy of proscription to 'rebels.' Is it not *liberal* enough? Just read its editorials since Wednesday last, and be convinced of how copiously the milk of human kindness is oozing through every pore of its skin. In short, the *Standard* can give you that it is, and has been, anything you may desire, any time these last two years.

But, however unreliable you may think it, there is one thing you may bet your bottom dollar it *will* do—it will sell every man it can who is in the way of sending Gov. Holden to the Senate in Abbott's place; and that it will be down on every man and paper that does not bow to the image of Buck-tail tot, to Holden and the ring."

A HORRIBLE RUMOR.—We heard it stated yesterday, by a policeman, that a most horrible and brutal affair occurred near station No. 10, on the Central Railroad, on Friday last. He stated that the police of this city were endeavoring to capture one or two negroes, who had forcibly carried to the woods, near station 10, two white young ladies, and after gagging and binding them, violated their persons in the most fiendish and bestial manner. One of the negroes is without an arm, which he says he lost when a slave of the father of one of the young ladies, and in this way. He was endeavoring to make his escape from his master when the latter shot at him and broke his arm, and thus necessitated its amputation. The infernal wretch, to gratify his revenge upon the father of the young woman, and after he had brutally violated her, took out his knife and cut off one of her arms, and gave as his reason for doing so, the facts stated to have occurred when he was a slave.

Our informant stated that one of the negroes had been arrested, and that the other was supposed to be in this city.—*Macon Telegraph.*

One Republican journal of this city comments with asperity upon the disposition of Democratic journals to criticise General Grant. Another Republican journal, of the same date, thus takes the polish off any Democratic criticism:

"We criticise President Grant for his demoralizing, corrupting practice of giving office in return for presents, his fatal disregard of law, his petty and cowardly foreign policy, and his deplorable failure to represent the sentiment and promote the manifest destiny of the country, * * * his folly, his incapacity, and his pernicious example. Does anybody think we utter unpleasant truth of this sort because we have been disappointed about an office? What nonsense! If we had wanted an office very much, the way to get it was plain. We had only to give the President a house or a horse. But never having made General Grant any presents, we have nothing to complain of on that account."

Still General Grant cannot yet say there is absolutely none so poor to do him reverence.—*N. Y. World.*

YELLOW FEVER AT NEW YORK.—Mention of the arrival on Wednesday, at New York quarantine, of the schooner "Mary Jane," from St. Domingo City, in tow of the steamer City of Port au Prince, has already been made. The New York *Commercial*, of Thursday, gives the following particulars of the sad condition of her crew:

"The steamer fell in with the schooner drifting about at sea in a helpless condition, and, on sending a boat to her, found the mate and all hands sick with yellow fever. The captain, Israel Nickerson, Lewis Cardy, cook, and John A. Swan, seaman, were found dead in their berths, having died from the fever. Upon arriving at quarantine the suffering seamen were transferred to the hospital ship 'Illinois.' The men when found, it was ascertained, had been suffering for food and water for four or five days. None of them could tell when they left port, or how long they had been sick. The captain, they stated, died on the 4th instant. The schooner was bound for Boston, and, it is supposed, had been out almost eighteen days. Among her papers was a clean bath bill."

WHAT IS SAID OF THE CHINESE.—Senor de Mas, late Spanish Minister at Pekin, writes of the Chinese in Cuba and in the Phillippine Islands, where he has long resided, and says that in Cuba some hundreds of the Chinese have got a few thousand dollars capital; five or six about $200,000, and one is worth $100,000, though it is only a few years since the Chinese colonization began. In the Phillippine Islands, where it is older, the Chinese and their race are mixed; they are proprietors of most of the lands in the country, and the natives less intelligent, sinking into the working population. The Chinese usually marry when and where they can find wives. In the East Indies they have intermarried with the Malays and the Tagals, and in the Sandwich Islands they wed with the Christians. In Peru they are settling in considerable numbers, and well were it for every State of South America if the Chinese would come with their industry and love of order. If they find their way into the Southern States, either the negroes will have to quit work or become more capable and industrious.

An inhuman wretch by the name of Schubert, crossing the plains from one of the Western States to Walla Walla, with a wife and two stepdaughters, the oldest aged about seventeen years, quarreled with his family last week near the mouth of Sinker Creek, Idaho Territory, took the wagon and team, with all their effects, leaving the woman and two girls on the sage plain entirely destitute. They were rescued by travellers and taken to Silver City. Mrs. Schubert and her daughters are represented to be very intelligent ladies.

The most important individual in Baden during the last three weeks has been a thin, grey whiskered little gentleman, whose blue velvet coat, comical pinched hat and pink parasol attracted the attention of even the few uninitated who did not recognize in this singular personage the great Offenbach. The popular composer has been staying at Baden in order to direct the rehearsals of his new operetta, which was given for the first time on the 6th inst., the maestro himself leading the orchestra.

NO HOPE—CONSERVATIVE SENATORS.

The difficulty in Virginia turns upon the same hinge as the difficulty in Georgia, and that hinge is the desperate anxiety of the Radicals lest a Conservative United States Senator get in from any reconstructed State. It will strike the reader that so long as "reliable" carpet bag men came up from the South there was no difficulty in the way of their admission to the Senate, but just the very moment that two genuine citizens, as in the case of Georgia, were presented, it was immediately perceived that the State sending them was not properly reconstructed. Not being properly reconstructed, it followed as a matter of course that the Georgia Senators elect could not be received, and they were not received—the reason being, of course, that one was known, and the other suspected to be, Conservative. Pretty much the same game is playing in Virginia. All this muttering and mumbling we hear about the Walker movement in that State being a sham is meant as an advance guard of a movement to keep out the two Conservative United States Senators that are certain to be elected unless the late election be upset. The current impression is that at Canby will endeavor to purge the Legislature by the exaction of the iron clad in such a manner as to secure two Radical Senators, himself as one of them; but this is so outrageous and barefaced a villainy that there is some doubt whether it can be successfully carried through.—Later developments would seem to indicate a less desperate mode of procedure to the same general end. That end is, in its essence, to prevent the election to the United States Senate of two Conservative Senators from Virginia. Canby's plan is the brutal resort of bayoneting out of the Virginia Legislature those men of sex that who cannot take the test oath, and bayoneting in their teeth Radical antagonists on the plea that they are the foil men highest on the poll. This flagrant dispersal of a reconstructed legislature at the point of the bayonet—the thing that was charged against Frank Pale—it is not certain the administration will dare to venture on; but a more subtle way is opened out in the act under which the late election was held. It is therein declared that the commandant shall officially promulgate the result of the election, and that on the fourth Tuesday after such promulgation the Legislature is to meet. Now it happens that, while the commandant is required to officially promulgate the result of the election, he is not required to issue such declaration at a day certain. It says promulgate, but not when to promulgate; and it is thus in Canby's power to prevent the assemblage of the Legislature, which is only to meet after his promulgation, by making no promulgation at all. This would tide the matter over to the assembling of Congress, when there is no doubt that a Senate which could trump up an excuse to keep the Georgia men out, after Georgia had fulfilled every requirement of the reconstruction acts, will be equally expert in nullifying the late conservative success in Virginia. Live or die, sink or swim, survive or perish, no more Conservative Senators in the Senate. That is Radicalism's last ditch.—*N. Y. World.*

TO EVERY FARMER AND PLANTER IN THE TWO CAROLINAS.

The *Carolina Farmer* was established in November 1868, as the organ of the farmers and planters of North and South Carolina. That it has thus far fulfilled the expectations of its friends is abundantly evidenced by the general and increasing favor with which it has been received. But the success already attained, though gratifying, is not all that they hope for and confidently anticipate. It is especially desirable to make the *Carolina Farmer* the medium through which the views of the most intelligent practical farmers of the two Carolinas may be exchanged. The advantages of such a medium are so obvious that it is not necessary to enlarge on them. Your own intelligence will suggest all that should be said on this point.

You must concede that our section of country needs an organ of this kind. We have already suffered so much from ignorance and unskillfulness in the cultivation of the soil, that it has become a duty on the part of our enlightened agriculturists to make a general and united effort for the correction of the evil. Poverty and bankruptcy have invaded the homes of our people to a sad extent, and these evils can only be averted by improving our system of agriculture. All wealth originates in the soil, and the growth of towns and cities without a corresponding increase in agriculture, is factitious and unprofitable. We want a healthy and flourishing agriculture as the basis of our industrial system.—When we obtain this, commerce will flourish, capital be accumulated, manufactures established, railroads built wherever needed and prosperity and contentment prevail. As an intelligent and patriotic citizen ask yourself whether you cannot do something towards the accomplishment of an object so noble? You may possibly think that your individual efforts in this direction can accomplish nothing worthy of note; but remember how great is the power of a free press in spreading truth and correcting error! Moreover there is a common bond of sympathy connecting those of like pursuits, and a word fitly spoken will often touch many on the right chord, awaken in them thought, and stir up others to give publicity to thoughts valuable and instructive.

The subscribers therefore appeal to you as a patriot and an intelligent farmer to aid them with your pen in building up the agriculture of our section. Give to your brother agriculturists, through the columns of the *Carolina Farmer*, the benefits of your observations and reflections. So doing you will contribute to the elevation of the noble pursuit of agriculture, the prosperity of your country and the happiness of its people.

Farmers, write for your paper, and thus enable us to make the *Carolina Farmer* a journal suited to the agriculture of our section. Communications on all practical subjects pertaining to the farm are earnestly solicited. And contributors may rely on the prompt publication of their articles, as the proprietor has determined, on the first day of November next, to convert the *Farmer* into a Weekly Agricultural and Family Journal, and will thus be enabled to publish everything in season. No advance will be made in the present subscription price.

Quite a remarkable instance of longevity coupled with rare activity, is to be found in the person of Mr. Daniel P. Orrell. He lives about six miles above High Point, on the old plank road; is a saddler by trade, and has reached the age of 101 years. He still plies the needle and turns out handsome and durable work. Mr. Orrell was a Captain of a volunteer company in the war of 1812. Several of his sons have become prominent in business. One is a merchant in New York, and another, Mr. Robert Orrell, is a resident of Fayetteville, and owns a steamboat on the Cape Fear which bears his name.

ANDERSONVILLE SUICIDE.

Three Little Incidents of Prison Life at Camp Douglas, Illinois—Horror Piled Upon Horror.

(Communicated to the Atlanta Constitutional.)

I give you the following as facts told to me by a prisoner, who was sent up at Camp Douglas twenty-two months. His statements can be substantiated by any number of citizens.

Incident No. 1.—In midsummer, 1864, it was exceedingly hot within the rock walls of the prison in Chicago, known as Camp Douglas. Indeed, taken in connection with the quality and quantity of food the Confederate prisoners were forced to accept, together with their general treatment, it was as much as the healthiest of them could do to live,—vast numbers of them died. In this condition of affairs, a poor boy, probably twenty years old, nearly exhausted with hunger and disease, with the vermin all over him, in fact, in a most pitiable condition, was leaning over an old empty "hard tack" barrel, trying to reach some bones which some of the boys had picked, (it was supposed he intended making soup of the bones,) his head and shoulders in the barrel, when a stout, well-fed Federal Lieutenant, named Farocion, as well as my informant can remember, but nick named "Old Bull," walked deliberately up to within four or five feet of him, and with his revolver shot him through the heart. The poor boy fell over into the barrel—a few quivers, a few spasmodic motions of the body, and he was dead.

Incident No. 2.—The arrangements for the prisoners to cook whatever of food there was for them was very poor. A long ditch, about two feet deep and four feet wide, was cut just in front of the line of the barracks, not more than two feet from the door. On the opposite side of the ditch from the barracks, and just in front of each door, was a sort of fire place dug in the earth. My informant tells me that he was standing one morning in the door of his prison, when he saw a young man, a prisoner, belonging to the 62d North Carolina regiment, come out of the door of the prison next to his (my informant) with a coal of fire in his hands preparatory to building up a fire, upon which to roast his rations, when my informant saw an officer draw his revolver and deliberately shoot the poor hungry fellow through the head, scattering his brains on the ground. The young North Carolina soldier fell over with his face in the fire he was making, and was dead. My informant stepped out to raise him from the ground, when he was told by the federal, "If you put your hand on him I will blow your d—d brains out."

Incident No. 3.—During this very hot season the prison was infested with all manner of disease, and many of the soldiers (prisoners) were wounded when captured; hence the number of deaths ranged from 10 to 50 per day. At this juncture some little matter had occurred among the prisoners, creating displeasure with the officers of the guard. About 10 o'clock one day 1,200 men, taking them as they come, regardless of the sick and wounded, were ordered out in the broiling hot sun; 50 were marched to the front, facing southward, 50 others marched up just behind the first 50, with the toes of the rear rank against the heels of the front rank, and so on until the 1,200 were in position, when the order, "close up, front rank stand firm," was given and obeyed until the 1,200 men were almost one solid mass of suffering human beings. In that tiresome, packed, restless, horrid condition, they stood, waiting to hear their doom. At length Lieut. Farocion ("Old Bull"), the hero of incident No. 1, stepped forward and read the order of the day.—These 1,200 men were to stand in the condition I have just described 12 hours, perfectly motionless—were neither to sit down, turn around; in fact, move—during the whole 12 hours. Considering the condition, physically, the men were in, and the nature of the order, of course it was well known the order could not be obeyed. In order to enforce this unreasonable punishment a strong guard was posted around the prisoners; perhaps the sentinels were not more than eight feet apart. The orders to the guards were, that in every case where one or more of the prisoners moved in the least to fire, indiscriminately, into the mass. When the prisoners had been standing about two hours one of the sick men fainted and fell, when volley after volley was fired into the mass of prisoners. There were three killed outright and several wounded. Query: Did Andersonville exceed this? Has Lieut. Farocion been sent along with Capt. Wirz.

Yours, truly, EX.

AN ATTEMPT TO ROB.—Mr. Mosely, a tobacconist, from Davidson county, passed through this place, Thursday morning, suffering from a bad cut and bruise which he alleges were inflicted upon him near China Grove, on the night previous, by two persons who attempted to rob him.

Mr. Mosley was on his return from the South where he had been with his wagon trading in tobacco. He camped near China Grove, and soon lay down in his wagon and went to sleep. About 10 o'clock he was waked by some two persons calling to him. He rose up, and as he did, one of the parties, standing at the front of his wagon, struck at him with an axe. The axe came in contact with the wagon cover which broke the force of the blow, but which still inflicted a severe gash on his head. He seized his gun, but before he was able to use it, he was knocked senseless by a stone thrown at him. He fell out of his wagon, and when he recovered, some time after, the parties had fled.

He says that it was an attempt to rob him, yet the parties from some cause took nothing from him. His wounds are quite severe and may prove fatal. Who the attacking parties are, is a matter of conjecture only.—*Salisbury Examiner.*

It is to be hoped that Secretary Boutwell may spare time enough from his efforts to choke down the rising opposition to Radicalism to clear his skirts of the grave charges made against him by one of his late subordinates. These charges are, first, having offered $10,000 as a bribe for evidence against President Johnson on the impeachment trial; second, with winking at outrageous frauds on the Treasury, in the shape of counterfeiting and corrupt bargains; and, third, in removing a Treasury officer for too faithfully doing his duty in exposing, to the shame of the administration, that black rogue forced on a Georgia city as United States Postmaster. It will not do for Mr. Boutwell to object to his accuser as one of his subordinates embittered by dismissal, inasmuch as this accuser was until lately chief of the Treasury detectives, and therefore just that very officer whose evidence Mr. Boutwell would have taken as conclusive on a charge of any Treasury fraud against anybody else. Is it any the less forcible against you, Mr. Boutwell?—*N. Y. World.*

A reign of terror prevails in Nueces, San Patrico, Live Oak, Refugio and part of Washington counties, Texas. A band of about three hundred desperadoes, or self-styled "regulators," under the head of Joseph Tumleston and a man named Helm are cleaning out things generally. It is stated that one hundred and three men have been shot and cut to pieces by this band during the last two months.

LIFE INSURANCE.

THE LEADING COMPANY IN NORTH CAROLINA IS

THE ÆTNA LIFE,

OF HARTFORD.

JULY 1ST, 1869.

Amount of Assets $12,000,000.00.

DIVISIBLE SURPLUS $2,675,999.48,

AND CONSTANTLY INCREASING.

ALL THE SURPLUS OF THE COMPANY DIVIDED AMONG THE ASSURED.

DIVIDENDS DECLARED AND PAID ANNUALLY ON THE CONTRIBUTION PLAN.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States.

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

LOSSES PAID PROMPTLY IN CASH.

LIST OF LOSSES ACTUALLY PAID BY THE ÆTNA LIFE INS. CO., AT THE BRANCH OFFICE, IN RALEIGH, BY THE HANDS OF W. H. CROW, GENERAL MANAGER OF THE STATE AND PART OF VA.

No. 15,273	$ 5,000

" 22,304	15,00

And $5,000 ready to pay a loss of No. 51,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered course, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fulness and purity, from this excellent, powerful, and flourishing Company, the Ætna Life, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

CITY AND STATE ITEMS

TUESDAY, AUGUST 24, 1869.

Tuos. M. ROYSTER, as Bank Clerk, is authorized to make contracts and give receipts, &c., &c.

The weather at Raleigh, N. C., as indicated by the Thermometer at the office of the North Carolina Land Company, Tucker Hall, Monday, August 23rd:

9 A. M., 85. 3 P. M., 90.
12 M., 88.

New Advertisements.—See the "proposals for brick" advertised by the Chairman of the Penitentiary Committee.

Also, "Notice to Manufacturers" by Hoffman, Ball & Co., of Baltimore, a most reliable and liberal house, and prepared to furnish information of the utmost importance to manufacturers of tobacco.

Douglas Bell advertises some seasonable goods—Vinegar for pickling; sugar for preserving and other desirable groceries.

P. F. Pescud, (it always appeared (to us that it would be right to call him *Dr.* Pescud) & Son, advertise Liquorice, which, we suppose is used by tobacco manufacturers;

And W. H. Jones & Co. offer some nice Virginia cured hams and sides, good enough for anybody to eat.

The workmen were engaged on Saturday in rearing the large iron columns for the front of Mr. B. F. Williamson's Store, corner of Fayetteville and Martin Streets. This, when completed, will be one of the finest buildings in the State. Mr. Appleget is the Architect; the work is done by Mr. T. H. Briggs.

Cabbages.—We are indebted to our friend B. W. Green, residing near the city, for some fine cabbage, raised in his garden. We have not weighed them, but they are as large as any we have seen during the season. Before Bryant got married his garden was grown up in weeds higher than a man's head; now, no doubt, he has a garden of fine vegetables—showing the advantage of having a good wife.

Serious Accident.—We learn that a youth by the name of William B. Sudder while driving a wagon, of the work-house, ran against a pile of lumber, which fell on him and crushed him so badly that it is thought he cannot recover.

The Penitentiary Commission adjourned on Saturday afternoon. We learn, they adopted a general plan of the building and took steps for the immediate commencement of operations. Mr. L. T. Schofield has been elected architect of the building, and Mr. Wm. J. Hicks, a skilful architect of our city, was elected Assistant, and will have the immediate supervision of the work. It is the intention of the Commission to push the work with all prudent dispatch.

Skedded Again.—A. H. Galloway, Senator from New Hanover, arrived in this city one day last week, and, we believe, is still sojourning here. Now, Galloway is a man of brains. We do not approve of his political course, but he has certainly been a spoke in the wheel of his party in the State, and has done it much faithful service. Not only was he a prominent member of his party in the Senate, but his name was on the party ticket and he was elected a member of the State Electoral College.—But he is a *colored* man, and, therefore, he arrives in the city and the *Standard* makes no mention of the fact. Mr. Shaffer leaves on a pleasure trip and the fact is announced forthwith; but Mr. Shaffer is no more distinguished than Mr. Galloway. Yet, Mr. Shaffer's movements are duly noted, while Mr. Galloway is completely ignored. Is this because he is a colored man, or because he has not been speaking very eulogistically of His Excellency, lately?

On yesterday (Sunday) morning about half past 6 o'clock policemen Crossan and Brenton observed smoke issuing out of the back part of the building on Fayetteville Street, occupied by A. D. Royster & Brother, as a Confectionary Store. On entrance it was discovered that a fire had ignited by some means in the rear room under the stairway, where there had accumulated a good deal of loose paper and trash. As the fire had made but little headway it was extinguished without much trouble by Messrs. McGuire and Cheney. We are glad to say that little or no damage was done.

The Messrs. Roysters note, we understand, insured in the North Carolina Home Insurance Co., to the amount of $1500, which loss would have been promptly met, if the worst had occurred.

The Fire on Sunday.—It is supposed that the fire in Messrs. Royster's Store on Sunday morning, was occasioned by a match carried among the loose paper and trash by a rat.

On the discovery of the fire, Eveline Haywood, a colored woman who cooks for Mr. Kuester, rendered most efficient service by gathering up a tub of water and hastening to the spot. Mr. Heubach, residing near, was also on hand with his two buckets; and a clerk in the Dry Goods establishment of Mr. Gittinger, assisted in suppressing the flames. By the timely and thoughtful action of these parties, in co-operation with the police and Messrs. McGuire and Cheney, no doubt a serious conflagration was prevented.

Some loss resulted in the melting of the pipes of the soda founts, breakage &c., which was promptly paid by the "North Carolina Home Insurance Company" in which the establishment was insured, yesterday morning, as soon as the amount of loss could be ascertained.

Evidence sufficient to point out one of the incendiaries of the late burning in Salisbury, was brought out by the action of the public meeting held there for the purpose of investigating the affair. The evidence was so pointed that the suspected individual, says the *Examiner*, has left the place forever.

Born Again.—According to the tenets of the gospel, a man must be "born again" in order to salvation. The North Carolina *Standard*, in order to make its "calling and election sure," (especially its *election*) considers it to be born over and over again. It came into the world "conceived in sin and born in iniquity,"—that was its natural state, or state of "original depravity." It lived a long time in this state, heaping up wrath against the day of "wrath," until, in order to avoid the impending consequences of its evil life, it set about being "born again," as intimated above. Its first birthday it claimed to be over years ago—"For two years the *Standard* has advocated universal suffrage and universal amnesty." The next new birth we take it occurred about three months ago—"The course of the *Standard* in the future will be in accordance with its course for the past *three months*." On Wednesday morning last it was born once more; it was born of universal amnesty, including, also, removal of disabilities and the abolition of test oaths. We look for another new birth in that quarter soon, but who her it will produce a monster of an angel, no one can predict from any visible sign.

Type Setting Machine.—Every year almost the long sought perfect type setting machine is invented. The latest is the invention of a man in Raleigh, and is approved by Mr. Seaton Gales and Gov. Holden, who assert their belief in its practicability. The name of the new instrument, which is called "The Wild Goose Type Setting Machine," excites suspicion, but the inventor is sanguine, and he promises to furnish forwith an accompanying type distributor, the two machines not to cost more than four hundred dollars.—*Charlotte Observer.*

The *some* of this machine cannot possibly affect its utility; it was adopted because of the sneers of that class of wiseacres who declared formerly that Railroads were an impossibility and telegraphs a humbug, and who stood with their mouths wide open when they first saw a Daguerreotype. This same sort of persons said Mr. Foster was engaged in "a wild goose project," so he adopted the name, perhaps somewhat in defiance of their views and sarcasm. The name is not inaptly suggestive of the rapidity with which the machine "handles" the types, resembling the quickness with which the wild goose gathers up the seeds of the cane.

We have seen the Machine at work, and can testify to the truth of all that has been said of it in Mr. Foster's card and we have no doubt that the Distributor will be perfected as soon as Mr. Foster can procure the means of prosecuting his labors on it, and that it will prove a perfect success.—For the purpose of procuring the means of continuing his work, he offers to sell an interest in the type setting apparatus, which is already a success.

A Magistrate who Can't Write his Name.—There actually qualified before the County Commissioners Thursday, a negro magistrate who can't write his name, and was compelled to affix "his mark" to the qualification oath. His name is George Page, elected for Holly township during the recent election. He will have a fine time making out warrants; and still he is also one of the Trustees for the township.—*Wil. Journal.*

The Robeson County militia and the outlaws who murdered ex-Sheriff King of that County, had a fight at Red Banks last Wednesday night, in which one of the militia was wounded, and the outlaws made their escape.

The Mayor and the Judge.—We learn that the Mayor has written to Judge Cantwell, intimating, in pretty strong language, that the Mayor's Court Room shall be used by Judge Cantwell *only* when *city* offences are being tried. If this intimation be carried into effect, the Judge will be compelled to find other quarters, when dispensing "reconstructed" justice to the unfortunate fellows who are carried before his stern tribunal on charges other than city offences.—*Wilmington Star.*

Sailorcat Item—from the Examiner.—A small fire occurred at Dr. S. Reeves' house on Friday night. It did no damage, and was purely an accident.

A New Fire Company.—We now have a new colored fire company, just organized. If it proves as efficient as the old one, our citizen will have cause to feel proud of it. This prompt action is very creditable to the colored people.

Both the companies were out in full force on Saturday, and did much to enliven the occasion.

We regret to learn that Thos. B. Long, Mayor, had a severe attack of appoplexy, on Saturday morning, and is a ill is a critical condition.

Later. The Mayor is much better, and it is hoped he will be out again in a few days.

The Rapid Growth of Chicago.—The late Charles Jackson who built the Fort Dearborn lighthouse at Chicago, about the year 1830, on his return to Detroit after the completion of the work, related the fact that he had been urged to buy one hundred and sixty acres of land (on the present site of the city) at two dollars per acre, but he considered it so utterly worthless that he would not have taken it as a gift. The land was marsh, and was under water a good portion of the year. Its products were bullfrogs and mosquitoes, which yielded only music neither edifying nor profitable.

A woman named Mrs. Gifford, living in the northern part of Marion county, Iowa, died Saturday from the efforts of fright at the eclipse. She had no knowledge of its approach and was alone at the time it came on, with the exception of a child four weeks old. Terrified at the sight, she seized her child and fled to a neighbor's, a mile distant. When she reached there her reason had gone. A doctor near by was called in, who pronounced her incurable.—She lingered till Saturday, when she died without her reason having returned.

In the Austrian army, there are 175 generals, 271 colonels, 302 lieutenant colonels, and 616 majors in active service, and 338 generals, 403 colonels, 411 lieutenant colonels, and 1,410 majors on the retired list, drawing pensions.

The editor of the Memphis Avalanche swoops thus mildly down upon a correspondent who posted him as a Radical:—"While he was writing the first word, the middle word, dotting his i's, crossing his t's, and punching his period, he knew he was concocting a sentence that was saturated with infamy and reeking with falsehood."

A little boy in Iowa rolled down hill with a rattlesnake clinging to him. Before he died his body was the perfect color of the reptile.

The Rothschilds of Paris have contributed twenty four thousand francs for the suffering Israelites in Western Russia.

The Second Adventists of Rhode Island and Connect cut have got hold of several New York roughs at their camp meeting, at South Windham, and made notable converts of them.

A Pennsylvanian who has kept a record reports twenty-two deaths in that State last week from kerosene oil explosions.

A smart man in Buffalo is organizing a divorce excursion to Chicago. Tickets will be sold cheap to any one desiring a divorce.

The Governor of Florida is opposed to the cession of the western part of that State to Alabama, and there does not seem to be more than a mere handful of people in favor of it.

Mrs. Harriet L. Hunter, postmistress of Deerfield, Michigan, for forty years, has just been removed. She has lost two husbands during her term of office, and the townspeople are malignant at her losing the office too. So says the New York Tribune.

At the women's suffrage meeting it was stated that Miss Anthony was excluded from the Philadelphia Labor Convention because last year she acted contrary to its spirit in the matter of the printer's strike on the paper called "The Revolution."

To the three charges of Mr. Wood, late U. S. Treasury officer, that Secretary Boutwell offered:

1st. $10,000 as a bribe for evidence against President Johnson on the impeachment trial. 2d. With winking at outrageous frauds on the Treasury, in shape of counterfeiting and corrupt bargains; and, 3d. In removing a Treasury officer for faithfully doing his duty in exposing, to the shame of the administration, that black rogue Dorsey on a Georgia city as United States Postmaster.

Chinese Superstitions.—Admiral Rowan, in his late report from our squadron in Chinese and Japanese waters, says: "The Chinese refuse to allow foreigners to mine coal, and will not mine it themselves because of the Fung and Shuey." The questions very naturally arise, who and what are the Fung Shuey? Are they a powerful party opposed to foreign enterprise and internal progress? The Fung Shuey are powerful but impalpable, having no existence save in the fright of the ever superstitious Chinese. These Fung Shuey are believed to be good and evil spirits that people the air, and influence the destines of the people in the every day affairs of life. A few years ago Snarbrook became very dull in Shanghai. The native merchants alarmed at the prostration of trade, consulted the adepts in Fung Shuei-sim, for it has its professors. The latter, after grave deliberation, informed the mercantile community that the north gate of the city had no walls before it to arrest the bad spirits, and that they had, in consequence, entered and destroyed business. A wall was at once erected, for the Chinese implicitly believe that the evil spirits of the air cannot turn a sharp corner. So all through the cities of the China walls and fences are erected, and in some instances, trees planted, to retard the progress of evil spirits, and other structures are destroyed as impediments to the paths of the good ones. For a shrewd money-getting people, as the Chinese are, this superstition is a most surprising one. But it obtains universally from the highest mandarin to the most humble coolie. The opening of coal mines, the Chinese believe, will free from their imprisonment in the earth legions of evil Fung Shuey, whose influence will be almost too fearful to contemplate.—*Philadelphia Inquirer.*

Key West, Aug. 21.—The bark, Washington Butcher, for Mobile, is ashore, bilged on Orange Keys; a portion of her cargo has been brought here. Nassau wreckers have charge of the steamer.

FOREIGN.

Madrid, Aug. 21.—Notwithstanding insurrection and invasion stories, it is believed that the Carlist movement is ended.

London, Aug. 21.—The regular mail by steamer reports that Lopez is at Asseurra with plenty of provision but short of war material. Allies captured Villa Rea and were preparing to march on Asseurra.

Paris Aug. 21.—The *La Presse* says that Cuba is lost to Spain, and the wisest thing Spain can do is to take advantage of the present situation.

London, Aug. 21.—The *Spectator* says that it is thought that the chances of success in the approaching boat race are nearly balanced between the two crews. The public are inquiring if Americans ever put out their whole strength.

The course is a hard one, but the race is likely to be close. If the weather is bad the result will be in favor of Oxford, if good, the Harvards will win.

It is reported that the order sending an Ironclad to Cuba on account of the detention of British vessels is countermanded.

Havana, Aug. 21.—The "Telegrafo" has anchored at Zorrosia. The "Semmon" has sailed for Porto Rico.

Haytien advices up to the 9th, report that Salnave has retreated from Jeremie, but is still besieging Les Cayes.

A Dutch schooner loaded with contraband warlike of war has been captured.

The rebel President Saget, is at St. Marks among the "Columbia" and "Dauphine" to attack Salnave's fleet.

A gold dollar is worth one thousand in paper.

MARKETS.

Monday Evening Dispatches.

FROM WASHINGTON.

Washington, Aug. 23.—The Indian Commissioner, Dodge, telegraphs from the far West very hopefully regarding the disposition of the Indians for peace.

Cuban dates have dates from Cuba to the 13th. Gen. Jordan had quite a fight at Puerto Padre—a running fight which lasted nearly the whole day. The Cubans had 1,000 men under command, the Spanish five regular companies. In this fight the Cubans were dislodged from their camp but rallied and finally drove the Spaniards off.

PENNSYLVANIA.

Philadelphia, Aug. 23.—Cool and pleasant, but no rain yet—water growing scarcer. The Councils meets this afternoon to devise means for supplying the city with water.

FOREIGN.

Madrid, Aug. 23.—Fifteen thousand workmen have struck in Barcelona. Other strikes are expected. There are serious apprehensions of the ability of the Government to keep order.

It is asserted on reliable authority that preliminaries for a truce, ceding Cuba to the United States, have been signed at Rome. This is authoritatively doubted in Washington.

Havana, Aug. 23.—One thousand insurgents have appeared in the vicinity of Manzanillo, Cuba District; there are few troops in the vicinity. The Governor is unable to control the volunteers, who are destroying all property belonging to the peaceful. Thirty persons from the district have arrived in Havana.

Halifax, Nova Scotia, Aug. 23.—Prince Arthur has arrived, and was received by the Governor General and a military escort.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so generally required by everybody as a cathartic, nor was ever before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a sure relief and far more effectual remedy than any other. Those who have tried it, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all climates, and containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating prevents them ever from being nauseous, and no one, even to take, will refuse them from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body; restoring their irregular actions to healthy and by correcting, wherever they exist, such derangements as are the first cause of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* promptly cure:

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one pill dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a cathartic.

For **Suppression** a large dose ought to be taken as it produces the desired effect by sympathy.

Also, **Disease** and **Pain** in the Head, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, thereby restoring the appetite and helping the digestion. Hence it is frequently supposed where no serious derangement exist. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are many cases in which a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this wonderful remedy for pulmonary complaints. Through a long series of years, and among all nations, its cures have been more and more numerous and astonishing, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for inclement seasons, and the dangerous affections of the lungs and throat. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could relieve even, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is speedily cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the world that its qualities are fully maintained.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in eruptive and ulcerative diseases, and when long continued, results in serious lesions of the brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some

The Daily Sentinel.

"One of the most curious and interesting reptiles, says the author of 'The Malay Archipelago,' which I met with at Borneo, was a large tree frog, brought to me by one of the Chinese workmen. He assured me that he had seen it come down in a slanting direction from a high tree, as if it flew. On examining it I found the toes very long, and fully webbed to their very extremity, so that when expanded they offered a surface much larger than the body. The fore legs were also bordered by a membrane, but the body was capable of considerable inflation. The back and limbs were of a very deep slate or green color, the under surface and the inner toes yellow, while the webs were boldly rayed with yellow. The body was about four inches long, while the webs of each hind foot, when fully expanded, covered a surface of four square inches, and the webs of all the feet together about twelve square inches. As the extremities of the toes have dilated disks for adhesion, showing the creature to be a true tree-frog, it is difficult to imagine that this immense membrane of the toes can be for the purpose of swimming only, and the account of the Chinaman that it flew down from the tree becomes more credible. This, I believe, is the first instance known of a 'flying-frog.'"

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the company is pursuing a legitimate business; they are empowered to "dispose of Real and Personal Estate in any mode or form they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English, and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example: Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation for selling—and some poor man, for two dollars comes in possession of a homestead, which, under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed.

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to 73947 premiums and see—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to investing, and the placing of property in the hands of the Company for sale. He represents that already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the explanatory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall to witness it.—Wil. Post.

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

☞ We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.

For further description and particulars, address

JOHN SKINNER,
Secretary.

Beautiful spring styles, neat and enough and some large enough. For Ladies, Misses and Children trimmed and untrimmed Hats. A beautiful assortment, come buy away your old hat, and always come to Creech's before you buy a new one. &c., &c.

Keep it before the people, that I told the people six months ago, that I intended to run through my campaign, with my motto to give each and every individual value received, for their valuable support, giving the Ladies a fair opportunity to exercise there inalienable rights, as well as the gentlemen, and since that time thousands have shown their good judgment by coming and demonstrating the truth of my assertion. I tell you Creech's is the place. And permit me to return my sincere thanks for your very liberal and valuable patronage for the last twenty-five years. I hope by strict attention to business, and honest dealing, giving each and every one the worth of their money that I will continue to receive a liberal share of your patronage.
